- [Adolescent Family Services](#)
- [Medi-Cal Outreach & Healthy Families](#)
- [Health Education Outreach Programs](#)

Medi-Cal Outreach & Healthy Families

The Medi-Cal and Healthy Families Program is an intensive outreach program that helps families, who do not have health insurance for their children, obtain health insurance for their children. The program provides families with education and assistance with the application process. The program has 17 Medi-Cal outreach workers stationed throughout all of our health centers. The Medi-Cal and Healthy Families Program works closely with the local Department of Human Services, to facilitate easy access to Medi-Cal or Healthy Families Insurance. The goal of the program is to decrease the rate of uninsured children in California.

Location

Available at all of our health center locations.

Please call the health center nearest you for information.
